

What You'll Get — Done-For-You Website

DB Asset Vault · \$299 flat (regularly \$3,700) · live within 7 days

Included in your build

- Up to 5 pages, or up to 2 websites / landing pages
- Custom design built around your brand, not a stock template
- Mobile, tablet and desktop layouts that actually look right
- SEO basics: titles, descriptions, alt text, sitemap and clean structure
- Contact form wired to your inbox
- Your domain connected (domain creation help if you don't have one yet)
- Fast hosting and an SSL secured address

How it works

- Pay and receive your receipt with an intake link
- Fill out the intake form: goals, pages, colors, fonts, logo and files
- I design and build — you review a live preview
- One round of revisions, then we launch
- Track every step on your order status page

What I need from you

- Business name, logo and any brand colors or fonts
- Copy or notes for each page (rough is fine — I'll polish)
- Photos or product images you want featured
- Domain login, or say the word and I'll help you register one
